HOSEI University

English-based Degree Programs 2020
for Undergraduate Students

Japan is a beautiful country with much to offer. International students can experience pop culture, state-of-the-art science and technology, and world heritages which are specific to Japan.

Study in the Center of Tokyo

The Ichigaya campus of HOSEI University is located in the center of Tokyo. Two other campuses (the Koganei Campus and the Tama Campus) are also located in Tokyo. Tokyo is one of the most amazing cities in the world. Studying in Tokyo gives you access to museums, pop culture, shopping, and entertainment to enrich your experience. Shinjuku, Ikebukuro, Akibahara, Shibuya, and Ginza are less than 30 minutes from the Ichigaya campus by train.

Safe and Comfortable living

Japan offers international students an environment to focus on their studies safely and comfortably. Japan is known for its low crime rate, advanced infrastructure, and outstanding hospitality. The on-time public transportation system helps you reach your destination safely. A well-established health insurance system enables students to receive advanced medical care for a small amount of money. International students can find great friends and interact with them comfortably because about 200,000 international students are studying at higher educational institutions in Japan. (Excerpt from the website of JASSO) Many foreign embassies are located in Tokyo which students can easily go to if needed.

Affordable Tuition and a Wide Range of Financial Support

Japanese universities offer comparatively lower tuition compared to the United States and the United Kingdom. There are a wider range of scholarship programs and tuition reduction programs available to international students in Japan than those in other countries.

More Than 135 Years of History

Immerse yourself in great education with a long history

HOSEI University, established in 1880 as the Tokyo School of Law, is a Japanese university with a long and storied history. It was the first private university in Japan to establish faculties of law and social sciences, and the second to establish a Faculty of Business Administration.

Globalized University

Access the world and gain a deeper understanding of Japan

In 1994, HOSEI University started to accept a number of Chinese students by establishing a short program for Chinese students ahead of other universities. HOSEI University accepted 1,403 international students in 2018, as part of the Top Global University Project, and boasts 244 partner universities in 42 countries and regions (as of February 2019).

Wide Range of Academic Fields and Student Support

Find what you want to learn and enrich your campus life

HOSEI has a wide range of academic fields. Since it was established, HOSEI’s academic fields have been organized into 15 undergraduate faculties and 38 departments, 15 graduate schools, and 2 professional graduate schools from the arts to sciences. All of the programs are accredited by the Japanese government. HOSEI also offers degree-seeking programs taught in English called "English-based Degree Program", meaning prospective students have a wide variety of programs to choose from. Moreover, the students receive a full range of student support such as financial support and career support.

Website(English) http://www.hosei.ac.jp/english/
English-based Degree Programs
(for undergraduate students)

What is an "English-based Degree Program"?

1. All classes taught in English
   English-based Degree Programs are conducted entirely in English, so that students who do not have Japanese proficiency are able to get a degree in Japan.

2. Japanese language classes
   Students have opportunities to study the Japanese language. Even if students cannot speak Japanese when they enroll, they will be able to get a minimum level of Japanese proficiency and enrich their life in Japan. (Japanese-language study is not included in the GIS curriculum)

3. Small class sizes
   A small group learning environment enables students to have opportunities to participate in classes actively, and is responsible for a deeper learning and a smooth acquisition of academic skills.

Linguistics, Sociology, Policy Studies, History, Anthropology, Geography

Social Theory

Philosophy, Sociology, Political Science

Migration and Diaspora

Migration Studies, Race and Ethnic Studies, Sociology, Anthropology, History

Peace & Conflict Studies

Political Science, Sociology, International Law, Economics, Anthropology, Geography

International Relations of the Asia-Pacific

Political Science, International Law, Economics, Geography

Corporate Social Responsibility

Business Management, Political Science, Development Studies

Business Management, Political Science, Regional Studies, Sociology

Disciplines

- Liberal arts-based and interdisciplinary studies
- Global perspectives content courses
- Specialized field in each semester

Connections beyond borders

- Professors and students from various countries and backgrounds
- Enriched learning opportunities through study abroad, overseas volunteer work, and interdisciplinary opportunities
- Built-in workshops and seminar-style classes
- Dedicated academic advisors

Teaching and learning

- English as a medium of instruction
- Academic skill and content-oriented interactive and active learning
- English teaching

- Core and selective courses

- Intermediate level to graduate level

From the Dean

Eleven-year-old GIS is proud to be a pioneer of English-medium liberal arts education in Japan. At the center of GIS are our students, in whose future we invest. All our professors have undergone rigorous training in their respective disciplines in various corners of the world. We have come together here in GIS to engage you in learning so that you can experience the pleasure of learning new knowledge, feel the sense of empowerment in acquiring various skills, and be surprised by exciting discoveries when you dare to look at things a little differently. Even if you think that you will pursue a career in finance and have planned on taking only courses in business and economics, you may discover that you actually like literature. You might even surprise yourself that you are able to apply what you have learned in literature to business management. A single perspective is not sufficient to help you understand and tackle complex issues in the world today. In our liberal arts curriculum, we offer intellectually stimulating courses in diverse fields, both traditional and cutting-edge, that you can put to good use in your future undertaking, no matter what your plans are. My hope for our students is that they cultivate an open but critical mind, develop flexibility in thinking yet are willing to take a stance. This GIS classroom is challenging and inspiring, exposing you to the many differences in perspectives, backgrounds and experiences of students and professors as you contemplate your own position and chart your future course. You will enjoy the diversity in GIS. Our door is open for you if you wish to open yourself to challenges. We are here to help you expand your horizons so as to realize your full potential.

Diana Khor
Dean of GIS

*Credit for courses is based on exchange.
Program Highlights

1. Third-oldest business school among Japanese universities
   Since its foundation in 1959, the Faculty's education and research studies have brought many graduates whose competency has been proven in the real business world. With our accumulated values built on a long history and tradition, combined with the school's motto, "Practical Wisdom for Freedom", we keep challenging new issues.

2. Obtain in-depth knowledge of Japanese-style business management
   Japanese companies have been able to maintain their competitiveness in the global business environment with outstanding craftsmanship and top-quality services. In addition to the large-scale manufacturers of products and brands with a worldwide reputation, many other companies in the areas of retailing and services also are successfully expanding their presence globally, particularly in Asian markets.

3. Curriculum relating theories to practice
   The students will acquire a broad range of knowledge and theory, from a basic to expert level, which are indispensable to participation in the global business environment.

What GBP offers

The Global Business Program (GBP) is a newly designed program integrated as part of the Faculty of Business Administration at HOSEI University, that commenced in September 2016. Its foundation is based on the objective to develop human resources for the management of globalized businesses in the 21st century, which is often called "The Asian Century".

The students in this program will enjoy active interaction with fellow students from different backgrounds and cultures, which will enhance their understanding of global business management, and encourage proactive participation in learning activities. In addition, this will become an optimum program for studying Japanese-style management as well as the Japanese spirit of craftsmanship and hospitality.

Japanese companies have been able to maintain their competitiveness in the global business environment with outstanding craftsmanship, widely known in Japanese as "Monozukuri", and top-quality services. In addition, large-scale manufacturers of products and brands with a worldwide reputation, many other companies in the areas of retailing and services also are successfully expanding their presence globally, particularly in Asian markets. Moreover, the Japanese style and spirit of hospitality, famously known in Japanese as "Omotenashi", captures the hearts and minds of tourists from overseas.

The GBP offers the unique opportunity to obtain in-depth knowledge of Japanese-style business management, which has been fundamental to corporate success throughout the world.

From the Dean

Why GBP at HOSEI? HOSEI's Faculty of Business Administration was established in 1959, the third oldest among Japanese universities. The GBP offers all major subjects of business administration from introductory to more advanced levels, most of which are taught in small classes by our full-time professors. It is located in the middle of Tokyo, so it is convenient to visit various attractive places.

More importantly, we offer opportunities for students to learn what is really going on in the Japanese business world. There are workshops involving active business persons and internships in Japanese and multinational companies.

The Japanese economy is not as good as it was during the 1990s and 1980s, and many formerly excellent companies are struggling to survive. But they still keep many good features such as efficient production of quality goods and affordable services full of hospitality.

What's happening? Well, good things and bad things are often two sides of the same coin, and it varies which side outbalances the other according to various conditions. Understanding that will be challenging but worthwhile. Therefore, we believe that learning from Japanese experiences, both good and bad, will be helpful for students to work in any sector or country after graduation.

So, why not GBP at HOSEI?

Introduction of GBP

Most courses are delivered through lectures integrating class teaching, case methods, guest speeches, videos, site visits, individual/group exercises, and class discussions. The course design does not rely only on abstract theories, rather it involves broad real-life examples. For instance, Global Business courses should be of particular interest to those interested in understanding typical management practices/methods at Japanese companies such as "Kizenn" (continuous improvements), "Omotenashi" (Japanese spirit of hospitality), etc.

The curriculum is subject to change.

**SCOPE**

**Sustainability Co-creation Programme**

Areas of Study: Sustainability, Environmental Policy, Energy and Resources, Social Development

Find Out More: Web: http://scope.hosei.ac.jp

---

**Program Highlights**

1. **Wide Variety of Disciplines**
   - We offer well-balanced, wide-ranging core courses from the humanities, economics, and sociology, focusing on ecological and natural resources, in order to comprehend and create solutions for the social and environmental challenges we are currently facing and may face in the future.

2. **Field-based and Active Learning Opportunities**
   - Students will be able to apply what they learned in the classroom in terms of knowledge, skills, and values to these disciplines to our communities and society through hands-on experiences off-campus. These learning opportunities will provide students with real-life exposure for sustainability challenges.

3. **"Co-creation" Experience**
   - The keyword of SCOPE is "Co-creation", which goes beyond "cooperation". Students have co-creation experiences through SCOPE core curriculum and the field-based and active learning with fellow SCOPE students, other Hosei University students, the university faculty members, as well as those who you meet through field workshops.

---

**What SCOPE Offers**

**The Objective of SCOPE**

What is a sustainable society? How can we create it? There is no absolute answer to these questions. The objective of SCOPE is to train students to become GLOCAL (Global + Local) citizens, who can lead a sustainable society globally and locally.

In this modern world, we face increasing challenges to maintain peaceful and prosperous societies, deriving from a number of factors such as global environmental problems, an ever-growing world population, globalization of economic activities and consumer behavior, as well as continuous political and religious conflicts in some regions. Now is the time we take actions to make a new model to establish a sustainable society. In order to join forces to achieve this goal, it is imperative that students grasp the whole structure as to how such issues are related to each other, and develop solution-oriented thinking skills. SCOPE utilizes experiential learning, research, and service activities to implement solutions for a sustainable future.

**What We Offer**

1) Ability to determine the core of complex issues and to comprehend the actual situation
2) Ability to critically analyze social and environmental issues and to seek possible solutions
3) Communication skills to bring together collaborative efforts of all society members throughout the pros of conducting a project and strive for the solution.

---

**From the Program Director**

**Toward a Sustainability Society**

Imagine yourself living in 2050, 31 years from now. Are you a middle-aged person. Are you still enjoying life? Is delicious food easily available? Are electricity costs acceptable? Can you travel anywhere you like?

If we continue to expand world economy in the business-as-usual manner, the economy will probably reach its limit someday. The life-supporting system of our planet will deteriorate even if not entirely collapse. It is likely that we have to live in a far less luxurious society in the future. You will be annoyed by a bill sent from the power company. Sightseeing tours will be an extraordinary luxurious activity. We are living in an unsustainable society.

If you want to enjoy your healthy life even in 2050 and further, we must change our course to make our society sustainable. But, how? Many people have proposed various alternatives. However, it is unknown which ones are acceptable and actually lead us to a sustainable society. Some of them might impose us intolerable cost, pain, or burden. Others might lead to a different direction. You need to be a stakeholder making the company sustainable. I hope you will join SCOPE to look for a possible passage toward a sustainable society. The SCOPE will provide you with not only interdisciplinary lectures but also opportunities to experience activities and measure actual conducted in Japan to reduce the environmental burden and to enhance the blessings given to us by nature. Our task is challenging but worthwhile. The SCOPE will support your efforts.

---

**Field Workshop**

"Field Workshops" are devised to explore various capacity-building environment off-campus. Participating in Field Workshops, students will make field trips off campus and meet people who are engaged in various "real" issues in different places.

Through this interactive and practical class, students will be able to understand better how to relate classroom activities to real-life agenda. Field Workshops will be provided by faculty members in the periods of summer and spring recesses.

The topics for the Field Workshops may include nature conservation, town planning, agriculture, community welfare, international cooperation, and energy conservation.

**Curriculum & Course List**

**SCOPE utilizes experiential learning, research, and service activities to implement practical solutions for a sustainable future.**

**Areas**

1. **Introduction to Sustainability**
2. **Sustainability Studies**

**Subjects**

- Seminar
- Japan & Sustainability

**Areas**

1. **Humanities**
2. **Environment & Society**

**Subjects**

- Strategies for Intercultural Communication
- Global Human Resources Management
- Business Communication
- Human and Environment
- Area Studies

- Business and Society
- Introduction to Energy and Resources
- International Society and Environmental Issues

**Disciplinary & Elective Courses are listed in the table above.**

---

**From the Professor**

Eiko SAEKI

Associate Professor

**SCOPE offers a rigorous and supportive environment to learn about global issues and their local impacts. I enjoy interacting with students with diverse backgrounds in the intimate academic setting SCOPE provides. I look forward to working with you to consider innovative solutions to many of the pressing concerns we face in the twenty-first century.**

---

**Careers**

Ryo FUJIKURA

Program Director

Professor

Environmental System: International Environmental Policy

ShaoWei WANG

Graduated from the Department of Sustainability Studies in 2017

Seiun-Eiyou Emajin Co., Ltd.

I mainly studied ‘Economic Environment’.

To solve various environmental problems I suggested solutions using concrete examples. Through this process I could acquire problem thinking skills.

I especially learned how to deal with environmental problems using Microeconomics, Business Administration and Economics Environmental Studies ways of thinking in order to create a sustainable society.

Recently, companies that make a point of focusing on environmental measures are increasing. Due to the fact that they are seeking to profit from the continuation of economic development, they need to deal with environmental issues as well. I am thinking that we can create real environmental issues by applying the knowledge I acquired at Hosei University to business activities. In addition, I can contribute to society by creating a system for dealing with company-related environmental issues.

I studied in an international student from China.

I didn’t just associate with students from China, but also tried to make Japanese friends. Please have an exciting student life and make every minute of your life ‘perfect’. I hope that you will live your dream and move towards a bright future.

---

---
1. Studying in small classes on 2 campuses.
2. Studying Economics
3. Enrichment of Liberal Arts and Japanese Language Education

IGESS offers bachelor’s degrees in Economics (B.A. in Economics) to support the development of globally-minded experts toward the formation of a sustainable society. You will study primarily global economics and write an honors thesis.

In the IGESS curriculum, you will be able to study liberal arts widely as part of your general education courses. You will have many opportunities to learn Japanese not only during the first three semesters but also throughout the following five.

What IGESS offers

The Faculty of Economics at HOSEI University, founded in 1920, has more than 3,000 students, and is according to one of the largest and oldest faculties among private universities in Japan. Established in 2018, the IGESS (Institute for Global Economics and Social Sciences) offers English-based degree programs in small classes. The annual student quota is 20 students.

When you join the IGESS, you can:
1. Spend the first three semesters at the Ichigaya Campus in central Tokyo attending the First Year Seminar. Japanese, Academic Skills and Liberal Arts classes, and the following five semesters on the beautiful, spacious Tama Campus in suburban Tokyo where you can take subjects offered by the Faculty of Economics as well as other faculties (including Social Sciences, Social Policy and Administration, and Sports and Health Studies).
3. Take basic Japanese at the Ichigaya Campus and many advanced lectures at the Tama Campus to improve your Japanese skills.
4. Study with Japanese students in both English-spoken courses and Japanese seminars.
5. Join (paid) international internships and (paid) international volunteer programs offered by HOSEI University and earn academic credit.

What you study

In this class we study the principles of economics and their applications to the real economy. The course covers numerous topics, ranging from Game Theory to Inequality to Macroeconomics and Finance. After studying the underlying theory we discuss each topic with reference to the world today and try to connect economic theory to current events in order to gain a better understanding of the world around us. This course is designed for students who want to learn how to use the tools of economics to analyze the modern world.

Participants learn business research skills for global marketing, business communication and leadership through business cases in Japanese contexts such as Nippon, Coca-Cola, Sanyo, Toshiba, Shimizu China etc. This course is also designed to give students a comprehensive view of business presentation and discussion skills. Students learn important skills for effective presentations in English and have a chance to improve their pronunciation and performance skills. This course also develops an awareness of the importance of coherence and cohesion in speech discourse to attract an audience.

English-based Degree Programs welcome applications from all over the world. Qualifications, English requirements, the application period and application documents depend on the program which applicants apply for. In advance of applications, please read through each admission guideline available at http://exam.52school.com/guide/hosei-edbp/guidebook. If you have any questions, please contact us at edbp@ml.hosei.ac.jp.

**Method of Selection and Application Documents**

The method of selection consists of document screening based on application documents other than the GIS Domestic Application. The GIS Domestic Application has a second screening which consists of an interview (in English) and an essay exam (in English). The following is only part of the application documents, so please check the application guidelines for details about all application documents.

**How to Apply**

1. Read Application Guidelines
2. Complete Online Registration
3. Send Application Documents by Post
4. Confirm Applicant Number and Check Screening Result
5. Complete Enrollment Procedures
6. Enroll in HOSEI University

*Please refer to the application guidelines for details.

Scholarships for International Students

Tuition Reduction Scholarship

Eligible undergraduate students may receive a tuition reduction depending on their grades as follows:

- 1st year students: 30% tuition reduction
- 2nd, 3rd, and 4th year students with excellent academic performance: 40% or 50% tuition reduction depending on their academic performance

Scholarships for Undergraduate Students

- **HOSEI International Fund (HIF) International Student Scholarship**
  - 1st, 2nd, 3rd, and 4th year students with excellent academic performance
  - Humanities: 200,000 JPY per year
  - Sciences: 250,000 JPY per year

- **New HOSEI University Centennial Scholarship for International Students**
  - 2nd, 3rd, and 4th year students who require financial assistance for their academics
  - Humanities: 200,000 JPY per year
  - Sciences: 250,000 JPY per year

- **HU Co., Ltd. Scholarship for International Students**
  - 2nd, 3rd, and 4th year students who require financial assistance for their academics
  - Humanities: 200,000 JPY per year
  - Sciences: 250,000 JPY per year

Career Paths and Support

HOSEI international students can increase their employability utilizing a wide range of free support offered by the Career Center. This support is responsible for success in students’ recruiting activities. Many HOSEI international students have entered major Japanese companies.

Career Support

Guidance
A wide range of guidance provides basic information needed for students’ recruiting activities in Japan. It helps students to understand Japan-specific recruiting activities and research Japanese companies and industries. The Career Center also send e-mails weekly to share information on recruitment and employment fairs with international students.

Workshops
A wide variety of workshops provides important advice to help with document screening and job interviews and group discussions. It also gives students opportunities to understand Japanese business customs and define their career goals through self-analysis.

Talk session with seniors who have job offers
Senior HOSEI international students with job offers share their real experiences of job hunting activities in Japan, which is valuable information for success.

Regular counselors
Job hunting consultations are given on a private, one-on-one basis.

Opportunities to learn business Japanese
International students have an opportunity to improve their business Japanese proficiency, which Japanese companies prioritize in their recruitment activities, through the above support.

The following data shows the post-graduation paths of HOSEI international students and English-based Degree Program students* who graduated in the past five academic years.

Major Employers

Manufacturing / Construction

Finance
Sumitomo Mitsui Banking Corporation, The Tokyo Star Bank, Limited, HSSC Global Asset Management, etc.

Travel, Hotels, Transportation

Retail / Distribution
Seven-Eleven Japan Co., Ltd., Ryohin Keikaku Co., Ltd., Fast Retailing Co., Ltd., Niton Co., Ltd., Amazon Japan G.K., Daimaru Matsuzakaya Department Stores Co., Ltd., etc.

Others
Rakuten Inc., NTT DATA Global Solutions Corporation, ABeam Consulting Ltd., IBM Japan Ltd., NTT DOCOMO, AbemaTV Japan Ltd., etc.

Major Graduate Schools

London School of Economics and Political Science (UK)
Yonsei University (South Korea)
University of Essex (UK)
Hult International Business School (USA)
University of Bristol (UK)

Monash University (Australia)
University of Sydney (UK)
Waseda University (Japan)
The University of Tokyo (Japan)
Tokyo University of the Arts (Japan), etc.

*Consists of students with the residency status of "Foreign Students Studying in Japan" in all of the programs and GS students without the residency status of "Foreign Students Studying in Japan".

Student Support

To help international students settle into Japan and maximize their campus experience, HOSEI offers a variety of extra-curricular activities, events, support, and facilities.

Club Activities
Club activities are an important part of campus life. More than 200 clubs are recognized by the University. Students can find a club for whatever they are into. In particular, the HOSEI University International Club organizes exchange events with international students such as a Japanese speech contest (with many international students participating), going to fireworks displays, watching the Big Six University Baseball League Tournament, and other activities.

Global Lounges (G-Louges)
Global lounges on the three campuses offer students opportunities to communicate in various languages, with many different events. International students and Japanese students can chat and make friends.

International Student Advisors and International Student Supporters
They help international students settle into life in HOSEI and Japan. Professors and students give you advice about daily life.

Accommodation

HOSEI University offers off-campus dormitories near each campus. Residents are provided with breakfast and dinner from Monday to Saturday, private bedrooms, an in-room Internet connection, and showers, available at any time. Students can address their questions or concerns to a dormitory manager. They can also enjoy parties and other events in the dormitories.

Since foreign students looking for rental accommodation in Japan face various challenges, such as the language barrier or finding a guarantor for their rental contracts, together with a partner company, HOSEI provides a full range of living support services for students seeking rental accommodation.

For more information on accommodation, please scan this QR code.

http://www.hosei.ac.jp/english/campus/support/finding_accommodation.html

Other Support and Facilities

• Computing and Networking Center that facilitates the use of the web, e-mail and more
• Online information for part-time jobs
• Study rooms where students can study in a quiet atmosphere
• On-campus health clinics that provide medical care
• Cafeterias offering a variety of dishes at reasonable prices
• Library with a collection of 1.7 million books
• Facility for off-campus activities (Ichikawa All-Purpose Gymnasium for a variety of sports)
• The Campus Members Program offering HOSEI students free admission to several museums
• Full support for immigration procedures
Practical Wisdom for Freedom

Hosei University was founded by a group of ambitious young men at the beginning of the modern era in Japan for ordinary citizens who had become aware of human rights and sought a knowledge of the law.

As the school song says, Hosei University is a place where "good teachers and good friends gather." The university has always fostered a "free academic atmosphere" in which the rights of others are respected and diversity is accepted and a "pioneering spirit" which is not bound by convention and aims at building a fair society.

Carrying on the legacy of the university's founders, our mission is to pass on this free academic atmosphere and pioneering spirit to the next generation and contribute to solving the problems of the world.

In order to fulfill this mission, the university strives to support far-sighted research from a variety of points of view and educate students to become independent citizens who carry out their work for the society and the people based on well-grounded principles and unrestricted thinking.

Hosei University promotes sound critical thinking based on sympathy for all people, both locally and internationally, and the creation of ideas for solving social problems based on practical wisdom. In cooperation with its many graduates, who have the ability to live anywhere in the world, Hosei University will contribute to the future of sustainable societies.
