Discover Japanese Culture, State-of-the-art Science and Technology, and World Heritages.

Japan is a beautiful country with much to offer. International students can experience pop culture, state-of-the-art science and technology, and world heritages which are specific to Japan.

Study in the Center of Tokyo

The Ichigaya campus of HOSEI University is located in the center of Tokyo. Two other campuses (the Koganei Campus and the Tama Campus) are also located in Tokyo. Tokyo is one of the most amazing cities in the world. Studying in Tokyo gives you access to museums, pop culture, shopping, and entertainment to enrich your experience. Shinjuku, Ikebukuro, Akihabara, Shibuya, and Ginza are less than 30 minutes from the Ichigaya campus by train.

Safe and Comfortable living

Japan offers international students an environment to focus on their studies safely and comfortably. Japan is known for its low crime rate, advanced infrastructure and outstanding hospitality. The on-time public transportation system helps you reach your destination safely. A well-established health insurance system enables students to receive advanced medical care for a small amount of money. International students can find great friends and interact with them comfortably because 200,000 international students from more than 170 countries are studying at higher educational institutions in Japan. (Excerpt from the website of JASSO) Many foreign embassies are located in Tokyo which students can easily go to if needed.

More Than 135 Years of History

– Immerse yourself in great education with a long history

HOSEI University was established in 1880 as the Tokyo School of Law. It is one of the Japan's traditional universities with a long history. The faculties of Law, Economics, and Social Sciences were the first among private universities in Japan. In addition, the Faculty of Business Administration has the 2nd longest history among private Japanese universities.

Globalized University

– Access the world and gain a deeper understanding of Japan

In 1904, HOSEI University started to accept a number of Chinese students by establishing a short program for Chinese students ahead of other universities. Today, HOSEI University is part of the Top Global University Project* and accepts 1,097 international students in degree-seeking programs as well as student exchange programs. There are 215 partner universities in 34 countries and regions as of February 2017.

*The Top Global University Project is a government-initiated project which provides prioritized support and funding for 37 selected universities in Japan.

Wide Range of Academic Fields and Student Support

– Find what you want to learn and enrich your campus life

HOSEI has a wide range of academic fields. Since it was established, HOSEI's academic fields have been organized into 15 undergraduate faculties and 38 departments, 15 graduate schools, and 2 professional graduate schools from the arts to sciences. All of the programs are accredited by the Japanese government. Moreover, HOSEI offers degree-seeking programs taught in English called "English-based Degree Programs". Applicants have a wide choice of programs and HOSEI students receive a full range of student support such as financial support and career support.

Affordable Tuition and a Wide Range of Financial Support

Japanese universities offer comparatively lower tuition compared to the United States and the United Kingdom. There are a wider range of scholarship programs and tuition reduction programs available to international students in Japan than those in other countries.

English-based Degree Programs (for undergraduate students)

What is an "English-based Degree Program"?

- All classes taught in English**
English-based Degree Programs are conducted entirely in English, so that students who do not have Japanese proficiency are able to get a degree in Japan.
- Japanese language classes**
Students have opportunities to study the Japanese language. Even if students cannot speak Japanese when they enroll, they will be able to get a minimum level of Japanese proficiency and enrich their life in Japan. (Japanese language study is not included in the GIS curriculum.)
- Small class sizes**
A small group learning environment enables students to have opportunities to participate in classes actively, and is responsible for a deeper learning and a smooth acquisition of academic skills.

Program Highlights

1

Liberal Arts

A liberal arts education lays the foundation for intellectual pursuits and creates a framework for students to both contribute to and thrive in society. GIS offers opportunities for students to gain a wide and deep knowledge of various disciplines, including (but not limited to) the humanities and social sciences, in order to enrich the mind, make unbiased judgments, and develop flexible and innovative thinking.

2

Interdisciplinary Studies

An interdisciplinary education at GIS moves between and beyond traditional academic fields. While building basic knowledge in established disciplines like economics, political science, sociology, and the arts, students also cultivate critical problem solving skills through cross-disciplinary research, offering the opportunity to challenge traditional disciplinary boundaries within a diverse and supportive university setting.

3

A Global Perspective

Recognizing the variety of social and political challenges confronting contemporary society, GIS seeks to cultivate a truly global perspective, developing innovative ways to analyze and engage with the diverse experiences of an interdependent world. Whether choosing a career path abroad or within the increasingly internationalized environment of Japan, students leave GIS with both the open-minded perspective required of today's new global citizens and the practical skills needed to succeed in a competitive marketplace.

What GIS offers

Global and Interdisciplinary Studies (GIS) offers a multifaceted education in English that looks at learning as a means to understand and engage with the world. Its English-immersion curriculum connects you to the global community through academic study in sociology, international relations and politics, English education, languages, and the humanities. Its low teacher-student ratio, with fourteen full-time and over seventy affiliate and part-time faculty for an enrollment of 100 students per year, offers the ideal educational experience. Class lectures, discussions, presentations and reports are the methods of instruction and learning in GIS, all done with an international and internationally-minded faculty. Beyond the academics, the professors and support staff are here to make your four years in GIS both memorable and personal. In the small community that is GIS, you are not just another face and name, you are GIS.

From the Dean

Mitsutoshi
SOMURA

Dean of GIS

The liberal arts, interdisciplinary education offered by GIS covers a plurality of fields. However, it is interdisciplinary not only in its curriculum but also in the way specific subjects and common topics are studied across its different fields. GIS offers a low student-teacher ratio, which allows students ample opportunity to participate in class. Our professors, endeavoring to give the students the best education possible, at the same time are scholars and researchers in their own fields. From them, students gain skill in critical thinking, problem solving, academic reading and writing, and information literacy, all of which are indispensable for research. A flexible and independently minded person with a solid academic background and a wide frame of reference will always be in demand. The study habits and knowledge you gain in GIS will be invaluable, whatever career you pursue. We welcome you to join our community of learning. The university and the faculty are here to support and encourage you in your challenges ahead.

Curriculum & Course List

Liberal Arts Education

400 level

Develop specialized knowledge in seminars by applying interdisciplinary perspectives to specific problems

300 level

Work within or across areas in focusing on particular global problems

200 level

Cultivate interdisciplinary perspectives by applying disciplinary knowledge to other fields

100 level

Build basic knowledge in core disciplines

Choose from a sampling of courses in each area to fulfill your liberal arts requirements

Academic Skills

Laying the groundwork for education and employment

Students acquire the fundamental skills essential for success in GIS and in their careers beyond.

Program Highlights

1 Third-oldest business school among Japanese universities

Since its foundation in 1959, the Faculty's education and research studies have brought many graduates whose competency has been proven in the real business world. With our accumulated values built on a long history and tradition, combined with the school's motto "Practical Wisdom for Freedom", we keep challenging new issues.

2 Obtain in-depth knowledge of Japanese-style business management

Japanese companies have been able to maintain their competitiveness in the global business environment with outstanding craftsmanship and top-quality services. In addition to the large-scale manufacturers of products and brands with a worldwide reputation, many other companies in the areas of retailing and services also are successfully expanding their presence globally, particularly in Asian markets.

3 Curriculum relating theories to practice

The students will acquire a broad range of knowledge and theory, from a basic to expert level. Additionally, the program includes company visits, internships, and classes given by guest lecturers with business management experience. Through these educational opportunities, the students will be able to relate the theories of business administration to actual practice.

What GBP offers

The Global Business Program (GBP) is a newly designed program integrated as part of the Faculty of Business Administration at HOSEI University, that commenced in September 2016. Its foundation is based on the objective to develop human resources for the management of globalized businesses in the 21st century, which is often called "The Asian Century".

The students in this program will enjoy active interaction with fellow students from different backgrounds and cultures, which will enhance their understanding of global business management, and encourage proactive participation in learning activities. In addition, this will become an optimum program for studying Japanese-style management as well as the Japanese spirit of craftsmanship and hospitality.

Japanese companies have been able to maintain their competitiveness in the global business environment with outstanding craftsmanship, widely known in Japanese as "Monozukuri", and top-quality services.

In addition to large-scale manufacturers of products and brands with a worldwide reputation, many other companies in the areas of retailing and services also are successfully expanding their presence globally, particularly in Asian markets. Moreover, the Japanese style and spirit of hospitality, famously known in Japanese as "Omotenashi", captures the hearts and minds of tourists from overseas.

The GBP offers the unique opportunity to obtain in-depth knowledge of Japanese-style business management, which has been fundamental to corporate success throughout the world.

From the Dean

Yoshio OKUNISHI
Dean and Professor,
Faculty of Business
Administration

Why GBP at HOSEI? HOSEI's Faculty of Business Administration was established in 1959, the third oldest among Japanese universities. The GBP offers all major subjects of business administration from introductory to more advanced levels, most of which are taught in small classes by our full-time professors. It is located in the middle of Tokyo, so it is convenient to visit various attractive places.

More importantly, we offer opportunities for students to learn what is really going on in the Japanese business world. There are workshops inviting active business persons and internships in Japanese and multinational companies.

The Japanese economy is not as good as it was during the 1960s to 1980s, and many formerly excellent companies are struggling to survive. But they still keep many good features such as efficient production of quality goods and affordable services full of hospitality.

What's happening? Well, good things and bad things are often two sides of the same coin, and it varies which side outbalances the other according to various conditions. Understanding that will be challenging but worthwhile. Therefore, we believe that learning from Japanese experiences, both good and bad, will be helpful for students to work in any sector or country after graduation.

So, why not GBP at HOSEI?

Curriculum & Course List

One essential element in the management of globalized businesses is development of communication skills in the English language. For this reason, the GBP will be conducted entirely in English.

The GBP students will acquire a broad range of knowledge and theory, from a basic to expert level, which are indispensable to participation in the global business environment.

Additionally, the GBP program includes in its curriculum company visits, internships and also classes given by guest lecturers with business management experience.

Through these educational opportunities, GBP students will be able to relate the theories of business administration to actual practices.

The GBP program is divided into four units;

- Basic unit – to learn the basics of business administration
 - Advanced unit – to acquire an advanced level of knowledge of business administration
 - GBP unit – lectures on business management and practice-based classes
 - Liberal Arts unit – to broaden knowledge in liberal arts and enhance communication skills
- An optimum combination of these four units will lead to the best mix of theory and practice.

Japanese companies have been able to maintain their competitiveness in the global business environment with outstanding craftsmanship, widely known in Japanese as "Monozukuri", and top-quality services.

In addition to large-scale manufacturers of products and brands with a worldwide reputation, many other companies in the areas of retailing and services also are successfully expanding their presence globally, particularly in Asian markets. Moreover, the Japanese style and spirit of hospitality, famously known in Japanese as "Omotenashi", captures the hearts and minds of tourists from overseas.

Introduction of GBP

Kazufumi MISAWA
Professor,
Faculty of Business
Administration

Most courses are delivered through lectures integrating class teaching, case methods, guest speeches, videos, site visits, individual/group exercises, and class discussions. The course design does not rely only on abstract theories; rather it involves broad real-life examples. For instance, Global Business courses should be of particular interest to those interested in understanding typical management practices/methods at Japanese companies such as "Kaizen" (continuous improvements), "Omotenashi" (Japanese spirit of hospitality), as well as the history/DNA of major Japanese companies such as Toyota, Sony and Nintendo.

[Course Example] GBP Global Business Course

<1st year>

Special Topics in Global Business
A

Japanese Uniqueness
• Kaizen, Just-in-time, etc.
• Sony, Toyota, etc.

Special Topics in Global Business
B

Global Trends & standards
• Internet, Innovation, etc.
• Apple, Zara, etc.

<2nd year>

- ① Workshop
Advanced listening to "real-world" guest speeches
- ② Internship
In depth hands on learning
- ③ Seminar
for more focused study

Program Highlights

1

Wide Variety of Disciplines

We offer well balanced, wide ranging core courses from the humanities, economics and sociology, to ecology and natural resources, in order to comprehend and create solutions for the social and environmental challenges we are currently facing and may face in the future.

2

Field-based and Active Learning Opportunities

Students will be able to apply what was learned in the classroom in terms of the knowledge, skills, and values of these disciplines to our communities and society through hands-on experiences off-campus. These learning opportunities will provide students "real life" exposure for sustainability challenges.

3

"Co-creation" Experience

The keyword of SCOPE is "Co-creation", which goes beyond "cooperation". Students have co-creation experiences through SCOPE core curriculum and the field-based and active learning with fellow SCOPE students, other HOSEI University students, the university faculty members, as well as those who you meet through field workshops.

What SCOPE Offers

The Objective of SCOPE

What is a sustainable society? How can we create it? There is no absolute answer to these questions. The objective of SCOPE is to train students to become GLOCAL(Global + Local) citizens, who can lead the creation of a sustainable society with global and local perspectives.

In this modern world, we face increasing challenges to maintain peaceful and prosperous societies, deriving from a number of factors such as global environmental problems, an ever growing world population, globalization of economic activities and consumer behavior, as well as continuous political and religious conflicts in some regions. Now is the time we take actions to make a new model to establish a sustainable society. In order to join forces to achieve this goal, it is imperative that students first grasp the whole structure as to how such issues are related to each other, and develop solution-oriented thinking skills. SCOPE utilizes experiential learning, research, and service activities to implement practical solutions for a sustainable future.

What We Offer

- 1) Ability to determine the core of complex issues and to comprehend the actual situation
- 2) Ability to critically analyze social and environmental issues and to seek possible solutions
- 3) Communication skills to bring together collective efforts of all society members throughout the process of conducting a project and strive for the solution

From the Director

Ryo
FUJIKURA
Director

Toward a Sustainability Society

Imagine yourself living in 2050, 33 years from now. You are a middle aged person. Are you still enjoying life? Is delicious food easily available? Are electricity costs acceptable? Can you travel anywhere you like?

If we continue to expand world economy in the business-as-usual manner, the economy will probably reach its limit someday; The life-supporting system of our planet will deteriorate even if not entirely collapse. We will probably have to give up what we enjoy today. Food will become less available. You will be annoyed by a bill sent from the power company. Sightseeing tours will be an extraordinarily luxurious activity. We are living in an unsustainable society.

If you want to enjoy your healthy life even in 2050 and further, we must change our course to make our society sustainable. But, how? Many people have proposed various alternatives. However, it is unknown which ones are acceptable and actually lead us to a sustainable society. Some of them might impose us intolerable cost, pain, or burden. Others might lead to a different direction. You are the stakeholder making the society sustainable. I invite you to join the SCOPE to look together for a possible passage toward a sustainable society. The SCOPE will provide you with not only interdisciplinary lectures but also opportunities to experience activities and measures actually conducted in Japan to reduce the environmental burden and to enhance the blessings given to us by nature. Our task is challenging but worthwhile. The SCOPE will support your efforts.

Curriculum & Course List

SCOPE utilizes experiential learning, research, and service activities to implement practical solutions for a sustainable future.

Areas	Subjects	Areas	Subjects
Introduction to Sustainability Studies	Introduction to Sustainability Studies	Humanities	<ul style="list-style-type: none"> Strategies for Intercultural Communication Global Human Resources Management Business Communication Arts and Society Human and Environment Area Studies

Disciplinary & Elective Courses are listed in the table above.

The curriculum is subject to change.

Field Workshop

'Field workshops' are devised to explore various capacity-building environment off-campus. Participating in field workshops, students will make field trips off campus and meet people who are engaged in various "real" issues in different places.

Through this interactive and practical class, students will be able to understand better how to relate classroom activities to real-life agenda. Field workshops will be provided by faculty members in the periods of summer and spring recesses.

The topics about the field workshop may include nature conservation, town planning, agriculture, community welfare, international cooperation and energy conservation.

From the Professor

Eiko SAEKI
Associate Professor

SCOPE offers a rigorous and supportive environment to learn about global issues and their local impacts. I enjoy interacting with students with diverse backgrounds in the intimate academic setting SCOPE provides. I look forward to working with you to consider innovative solutions to many of the pressing concerns we face in the twenty-first century.

Careers

Shaowei WANG
Graduated from the Department of Sustainability Studies in 2017
Seven-Eleven Japan Co., Ltd.

I mainly studied "Economic Environment". To solve various environmental problems I suggested solutions using concrete examples. Through this process I could acquire problem thinking skills. I especially learned how to deal with environmental problems using Microeconomics, Business Administration and Economics Environmental Studies ways of thinking in order to create a sustainable society. Recently, companies that make a point of focusing on environmental measures are increasing. Due to the fact that they are seeking to profit from the continuation of economic development, they need to deal with environmental issues as well. I am thinking that we can tackle real environmental issues by applying the knowledge I acquired at HOSEI University to business activities. In addition, I can contribute to society by creating a system for dealing with company-related environmental issues. I studied as an international student from China. I didn't just associate with students from China, but also tried to make Japanese friends. Please have an exciting student life and make every minute of your life "perfect". I hope that you will live your dream and move on towards a bright future.

Program Highlights

1 Studying in small classes on 2 campuses.

The Faculty of Economics is large, but you will study in a small group of students in IGESS classes. In addition, you will spend time at both the Ichigaya and Tama campuses.

2 Studying Economics

IGESS offers bachelor's degrees in Economics (B.A. in Economics) to support the development of globally-minded experts toward the formation of a sustainable society. You will study primarily global economics and write an honors thesis.

3 Enrichment of Liberal Arts and Japanese learning

In the IGESS curriculum, you will be able to study liberal arts widely as part of your general education courses. You will have many opportunities to learn Japanese not only during the first three semesters but also throughout the following five semesters.

What IGESS offers

The Faculty of Economics at HOSEI University, founded in 1920, has more than 3,000 students, and is accordingly one of the largest and oldest faculties among private universities in Japan. Established in 2018, the IGESS (Institute for Global Economics and Social Sciences) offers English-based degree programs in small classes. The annual student quota is 20 students.

When you join the IGESS, you can:

1. Spend the first three semesters at the Ichigaya Campus in central Tokyo attending the First Year Seminar, Japanese, Academic Skills and Liberal Arts classes, and the following five semesters on the beautiful, spacious Tama Campus in suburban Tokyo where you can take subjects offered by the Faculty of Economics as well as other faculties (including Social Sciences, Social Policy and Administration, and Sports and Health Studies);
2. Study Economics from the first semester, and from the fourth semester attend specialized courses in Economic Theory and Applications, Applied Global Economics and Global Business, and Business English and Communication;
3. Take basic Japanese lessons at the Ichigaya Campus and many advanced lectures at the Tama Campus to improve your Japanese skills;
4. Study with Japanese students in both English-spoken courses and Japanese seminars; and
5. Join (paid) international internships and (paid) international volunteer programs offered by HOSEI University and earn academic credits.

Curriculum & Course List

Students require extensive knowledge of Economics and a variety of other disciplines to understand today's global economy. Accordingly, the IGESS curriculum encompasses the following course and program elements:

- Extensive basic education and liberal arts courses up to the third semester
- From the fourth semester, well-balanced courses in Economic Theory and Application, Applied Global Economics and Global Business, and Business English and Communication
- Graduation thesis preparation with supervision from seminar instructors

	1st Fall	2nd Spring	3rd Fall	4th Spring	5th Fall	6th Spring	7th Fall	8th Spring

The curriculum is subject to change.

What you study

Jess DIAMOND

Associate Professor of Economics
Ph.D. in Economics,
University of California
San Diego

In this class we study the principles of Economics and their applications to the real economy. The course covers numerous topics, ranging from Game Theory to Inequality to Macroeconomics and Finance. After studying the underlying theory we discuss each topic with reference to the world today and try to connect economic theory to current events in order to gain a better understanding of the world around us. This course is designed for students who want to learn how to use the tools of economics to analyze the modern world.

Textbook: Acemoglu, D., Laibson, D., and List, J.A. 2015. Economics: Pearson.

Yasuo NAKATANI

Professor of Economics,
Ph.D. in Applied English
Linguistics,
The University of
Birmingham

Participants learn business research skills for global marketing, business communication and leadership through business cases in Japanese contexts such as Intel Japan, Coca-Cola, Sapporo Beer, Toshiba Vietnam and Shiseido China etc. This course is also designed to give students a comprehensive view of business presentation and discussion skills. Students learn important skills for effective presentations in English and have opportunities to improve their pronunciation and performance skills. This course also develops an awareness of the importance of coherence and cohesion in speech discourse to attract an audience.

Textbooks 1. Y. NAKATANI & R. Smithers. Global Leadership; Case Studies of Business Leaders in Japan Kinseido

From the Dean

Yutaka SUZUKI

Dean of the Faculty of Economics.

The Institute for Global Economics and Social Sciences (IGESS) will offer English-based degree programs based on collaboration among four faculties (Economics, Social Sciences, Social Policy and Administration, and Sports and Health Studies) at HOSEI University's Tama Campus. At IGESS, students will be scheduled to study both on the Ichigaya and Tama Campuses. IGESS will offer bachelor's degrees in Economics (B.A. in Economics) to support the development of globally-minded experts toward the formation of a sustainable society. IGESS's educational curriculum is designed for students who are eager to study Global Economics (especially Global Economy, Global Business and Business Communications) in English. We are looking forward to welcoming students who are enthusiastic about these aims.

Admission

English-based Degree Programs welcome applications from all over the world. Qualifications, English requirements, the application period and application documents depend on the program which applicants apply for. In advance of applications, please read through each admission guideline available at <http://exam.52school.com/guide/hosei-ebdp/guidebook/>.
If you have any questions, please contact us at ebdp-i@ml.hosei.ac.jp

- Application guidelines available at <http://exam.52school.com/guide/hosei-ebdp/guidebook/>

2 Complete Online Registration

- Register Your Personal Information
- Pay Screening Fee (20,000 JPY)
- Upload Self-introduction Video(except for GIS applicants) on My Page
- Print Enrollment Request Form on My Page

3 Send Application Documents by Post

- The application is not complete until all application materials have been received at HOSEI University.

4 Confirm Applicant Number and Check Screening Result

- Check your applicant number on My Page
- Your applicant number will be uploaded on My page by five days prior to the day results are announced
- Check your results with your applicant number at <http://exam.52school.com/guide/hosei-ebdp/>

5 Complete Enrollment Procedures

- Complete school fee payment and send enrollment documents by post following the Enrollment Procedure Guide

6 Enroll in HOSEI University

*The GIS Domestic application process is different from the above. Please follow the application guidelines available at <http://exam.52school.com/guide/hosei-tokubetsu/guidebook/>

*The above process is subject to change. Please refer to the University website for updates.

Other Programs

Non-Degree Seeking Program

JLP(Japanese Language Program)

Japanese Language Program (JLP) is for non-degree students who are non-native speakers of Japanese. This program offers a wide range of study levels and subjects for students who have N4 level or higher of the Japanese-Language Proficiency Test (JLPT). It also, as one of objectives, focuses on attaining Japanese proficiency required for study at university undergraduate and graduate level, and business in future career. Our educational goal is to develop internationally competent students capable of communicating in Japanese and contributing to a global society. We open our door to any foreign students who are eager to learn Japanese language and culture at a university in Japan.

For more information on scholarships and tuition reduction, please scan this QR code ▶▶
(Please see "Chapter 4 Scholarships/Tuition Reduction" in the International Students Handbook)

Career Paths and Support

HOSEI international students can increase their employability utilizing a wide range of free support offered by the Career Center. This support are responsible for success in students' recruiting activities. Many HOSEI international students have entered major Japanese companies.

Career Support

Guidance

A wide range of guidance provides basic information needed when students look for jobs in Japan. It helps students to understand Japan-specific recruitment activities and how to research Japanese companies and industries. The Career Center also send e-mails weekly to share information on recruitment and employment fairs with international students.

Regular counselors

Job hunting consultations are given on a private, one-on-one basis.

Workshops

A wide variety of workshops provides important advice to help with document screening and job interviews and group discussions. It also gives students opportunities to understand Japanese business customs and define their career goals through self-analysis.

Talk session with seniors who have job offers

Senior HOSEI international students with job offers share their real experiences of job hunting activities in Japan, which is valuable information for success.

Opportunities to learn business Japanese

International students have an opportunity to improve their business Japanese proficiency, which Japanese companies prioritize in their recruitment activities, through the above support.

Student Support

To help international students settle into Japan and maximize their campus experience, HOSEI offers a variety of extra-curricular activities, events, support, and facilities.

Student Interactions

Club Activities

Club activities are an important part of campus life. More than 200 clubs are recognized by the University. Students can find a club for whatever they are into. In particular, the HOSEI University International Club organizes exchange events with international students such as a Japanese speech contest (with many international students participating), going to firework displays, watching the Big Six University Baseball League Tournament, and other activities.

Global Lounges (G-Lounges)

Global lounges on the three campuses offer students opportunities to communicate in languages other than Japanese, with many different events. International students and Japanese students can chat and make friends.

International Student Advisors and International Student Supporters

They help international student settle into life in HOSEI and Japan. Professors and students give you advice about daily life.

Accommodation

Off-campus dormitories are located about 40 minutes by train from each campus. Residents are provided with breakfast and dinner from Monday to Saturday, private bedrooms, an in-room Internet connection, and showers, available at any time. Students can address their questions or concerns to a dormitory manager. They can also enjoy parties and other events in the dormitories.

Since foreigners looking for rental accommodation in Japan face various challenges, such as the language barrier or finding a guarantor for their rental contracts, together with a partner company, HOSEI provides a full range of living support services for international students seeking rental accommodation.

For more information on accommodation, please scan this QR code ▶▶

http://www.hosei.ac.jp/english/campus/support/finding_accommodation.html

Other Support and Facilities

- Computing and Networking Center that facilitates the use of the web, e-mail and more
- Online information for part-time jobs
- Study rooms where students can study in a quiet atmosphere
- On-campus health clinics that provide medical care
- Cafeterias offering a variety of dishes at reasonable prices
- Library with a collection of 1.7 million books
- Facility for off-campus activities (Ishioka All-purpose Gymnasium for a variety of sports)
- The Campus Members Program offering HOSEI students free admission to several museums
- Full support for immigration procedures

Practical Wisdom for Freedom

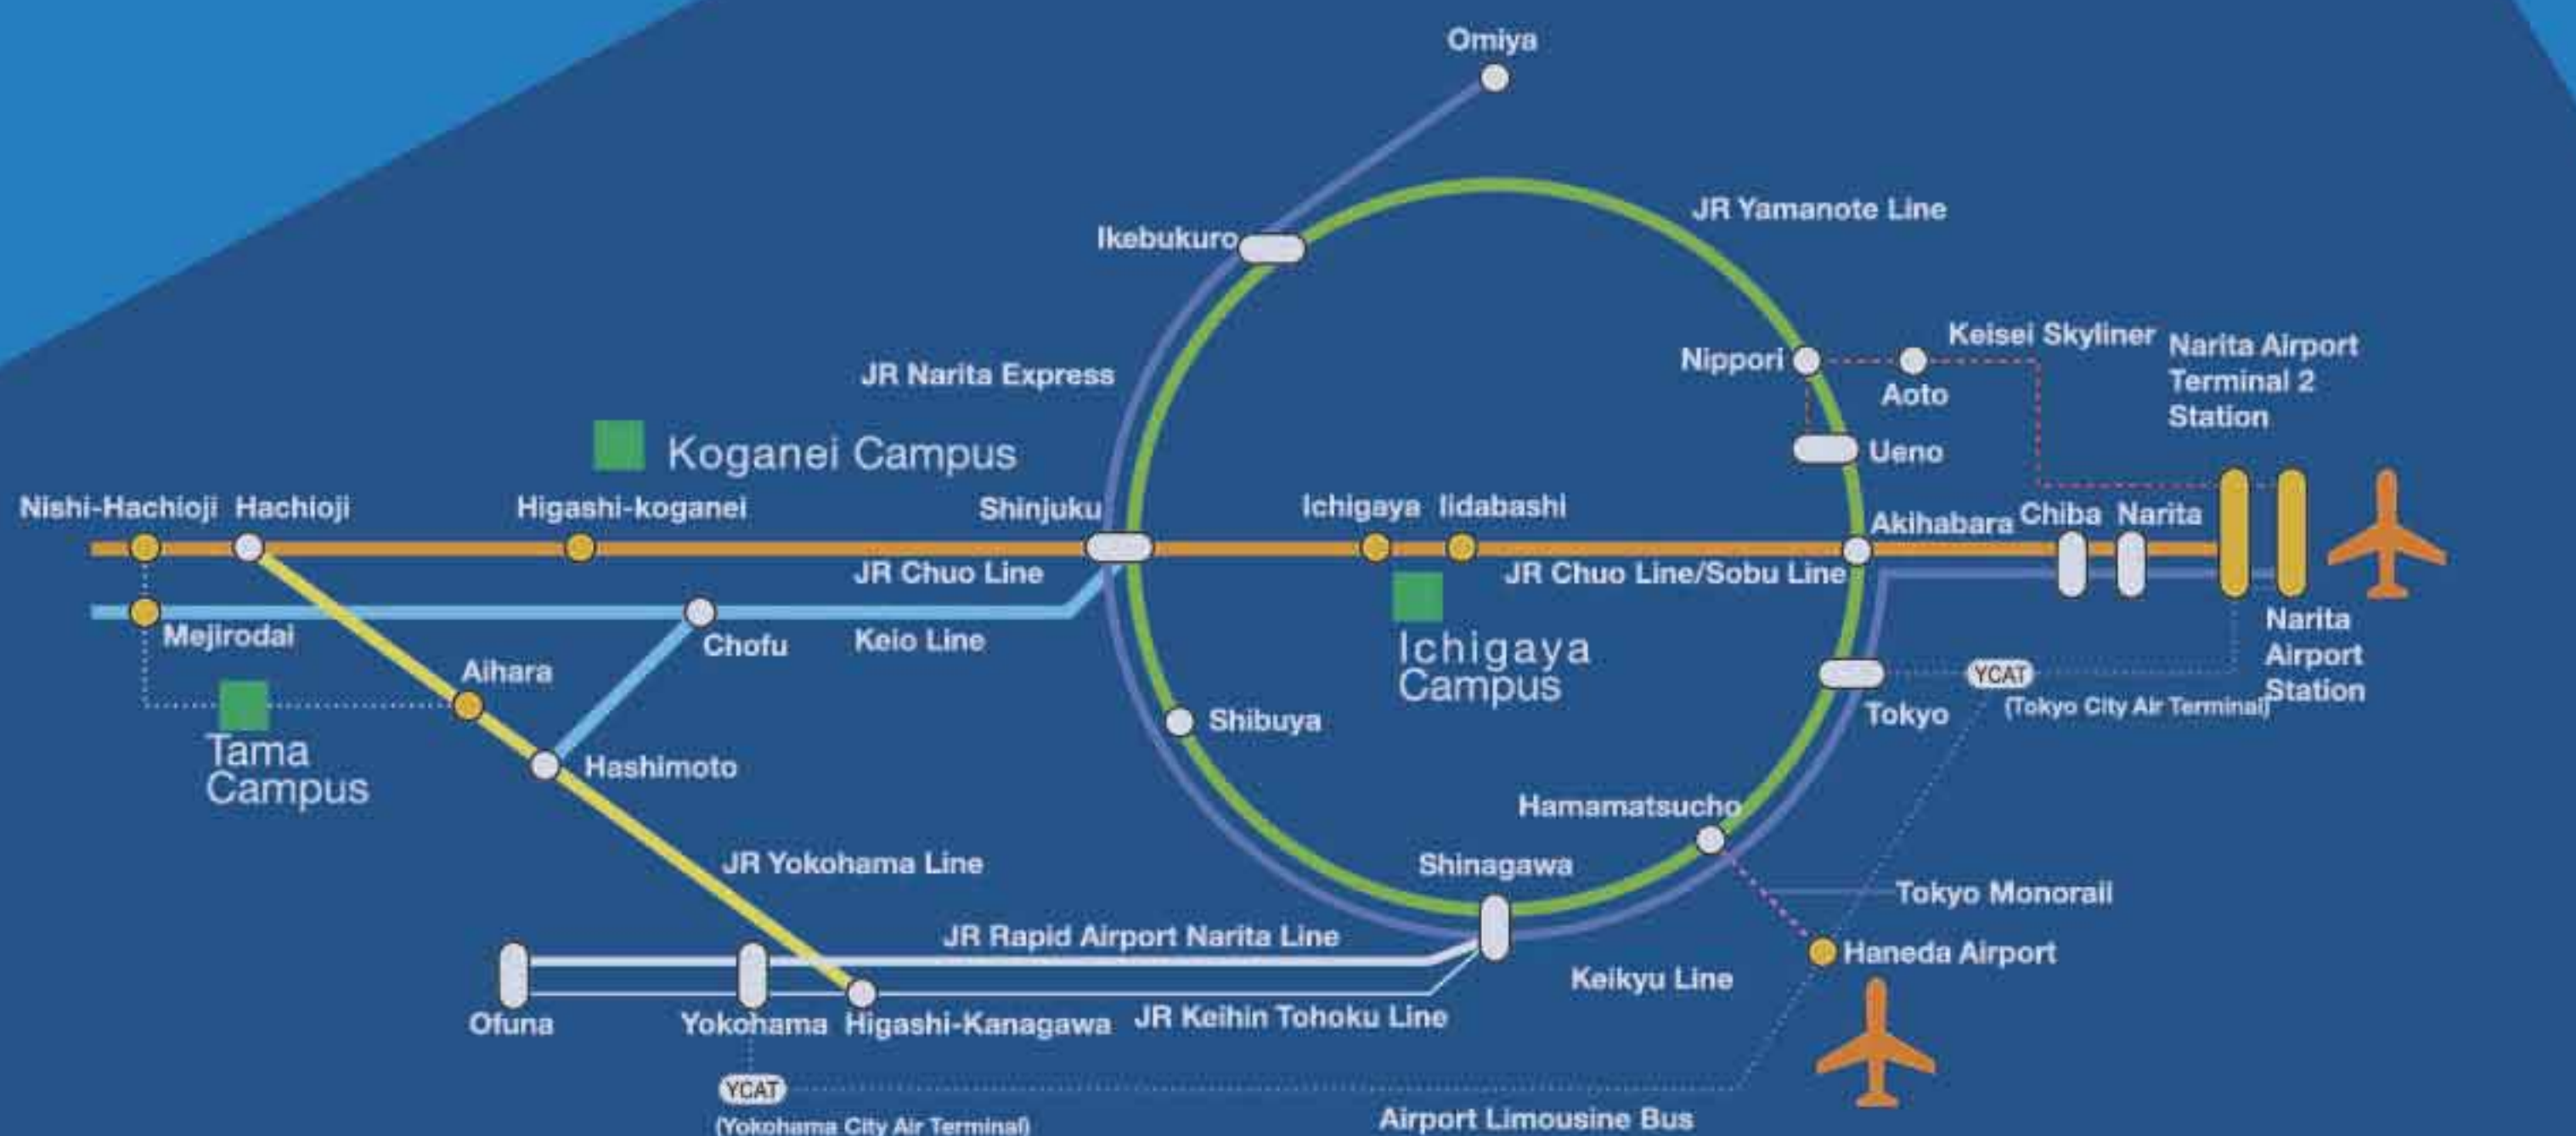

Hosei University was founded by a group of ambitious young men at the beginning of the modern era in Japan for ordinary citizens who had become aware of human rights and sought a knowledge of the law.

As the school song says, Hosei University is a place where "good teachers and good friends gather." The university has always fostered a "free academic atmosphere" in which the rights of others are respected and diversity is accepted and a "pioneering spirit" which is not bound by convention and aims at building a fair society.

Carrying on the legacy of the university's founders, our mission is to pass on this free academic atmosphere and pioneering spirit to the next generation and contribute to solving the problems of the world.

In order to fulfill this mission, the university strives to support farsighted research from a variety of points of view and educate students to become independent citizens who carry out their work for the society and the people based on well-grounded principles and unrestricted thinking.

Hosei University promotes sound critical thinking based on sympathy for all people, both locally and internationally, and the creation of ideas for solving social problems based on practical wisdom. In cooperation with its many graduates, who have the ability to live anywhere in the world, Hosei University will contribute to the future of sustainable societies.
