Voices of Students

1. How has your campus life and study been?

I'm enjoying the life in Japan. But in the beginning, I felt nervous because there were few Vietnamese students at Hosei and I couldn't speak Japanese. Luckily, I've made many good friends and great sensei (professors). They've taught me Japanese, supported my research, helped me to find a job, and gave me a lot of useful advice. I feel like I'm a part of a big family and now I'm confident enough to live in Japan.

2. What is your most impressive experience so far?

My most impressive experience in Japan is that everyone is very kind, emotional, and extremely polite. People are willing to help you even they don't know you. You don't need to worry about losing things or delays because they're honest and always on time.

3. Why do you recommend Hosei to international students?

Every university in Japan is a good choice for international students. But Hosei University, which has a modern learning environment, with a long history, is one of the biggest universities in Japan, and is located in the capital of Japan. With these things, I believe that Hosei will be the best place for International students for studying and living.

4. Message for international students considering Hosei as the next step to study.

For those who want to come to Hosei University, you are wise and clever because you are making a right decision. Hosei University is a beautiful place where you can experience something new and learn a lot. You are always welcome at Hosei and I'm always willing to help you. I am looking forward to seeing you.
