

# Student Counseling Center

Hosei University cares about your well-being and is here to support you. The Student Counseling Center offers mental health services to students who encounter various challenges while at Hosei. It is confidential, free of charge, and available to all registered Hosei students.

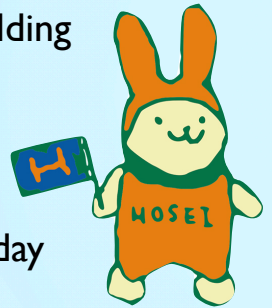

Certified Clinical Psychologists are here to listen to you and provide support. When you need help, please come and talk to us. Concerns do not have to be about university life. Students come here to talk about issues including, but not limited to, academic performance, career paths, personality, interpersonal relationship, sexuality, and overall mental health.

If you are interested in using our services, please call and make an appointment. Since the staff may not be able to communicate in English, if you need help making an appointment, please consult with SCOPE administrative staff to assist you with the process.
