

- Using an iOS smartphone set to a language other than Japanese

Semester passes, coupon tickets, and one-month passes are available only in Japanese. Therefore, if both your smartphone's system language and the app's language are set to a different language, you will not be able to purchase or use tickets.

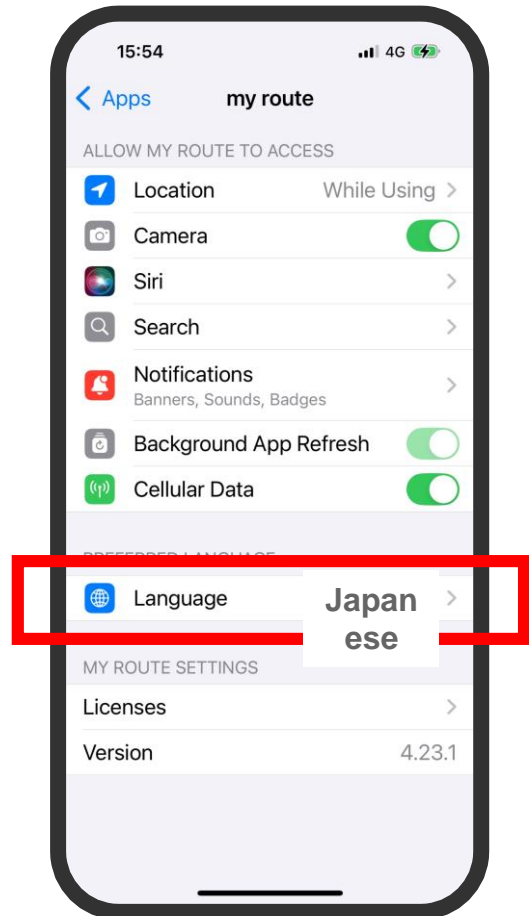

Even if your smartphone's system language remains in another language, you can purchase and use tickets by switching the language setting in the "my route" app to Japanese.

For details on how to purchase, please refer to page 11.

(1) In [Settings], select [Apps].

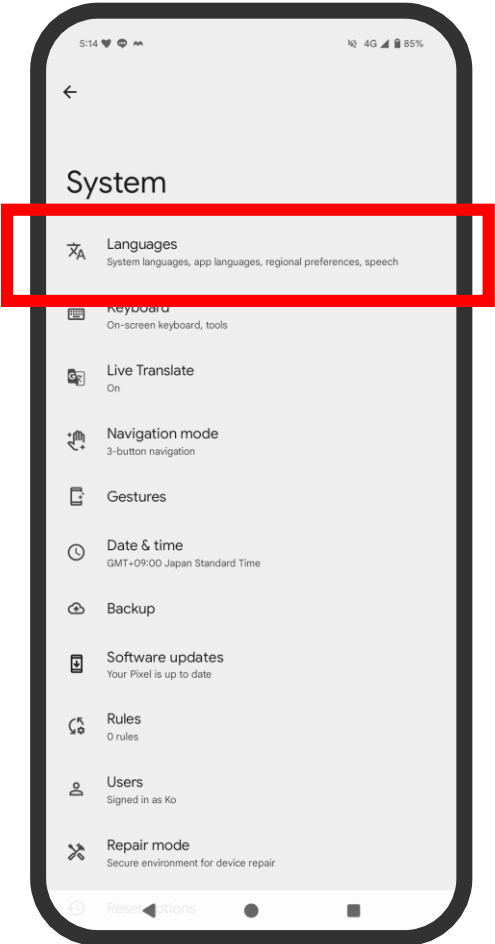

(2) In [my route], change [Languages] to [Japanese].

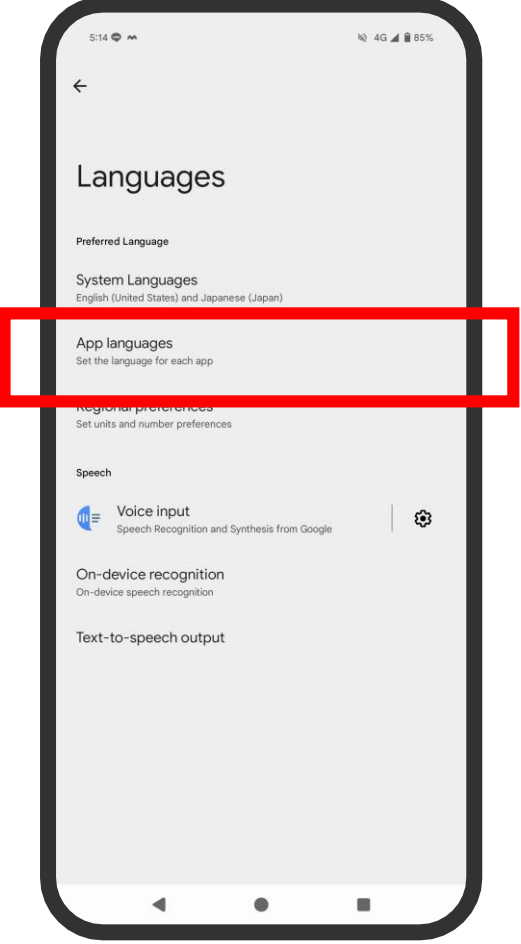

● Using an Android smartphone set to a language other than Japanese

Select [Languages] under [System].

Select [App languages].

Select [Japanese] for the [my route] app language.
