About our student dormitories

1. Daily Meals

You can save time for cooking and washing dishes. You will enjoy fresh meals using your time effectively! You can choose Japanese or Western menu for breakfast.

※ Last order time for breakfast is 15minutes before the closing time, and that for dinner is 30minutes before the closing time.

※ **Attention: It's not possible to respond to your personal requests according to your allergy or religious restriction. Vegetarian / religious menu such as halal are not available.**

2. Facilities & Equipment

. Students do not need to buy or bring their own furniture because necessary fixtures and furniture for daily life are provided, which saves you the cost of moving. Each room is furnished with a bed, desk, chair, air-conditioner, IP telephone, bookshelf, closet or chest, and lamp. Each room has 24 hour dedicated Internet connection. Also, IP telephone in each room will help you to save the phone bill.

3. Common Facilities

• Our dorm has many common facilities. You can use not only the dining room, kitchen, big bath, laundry room and private shower room but also the electric appliances such as a vacuum cleaner and an iron.

※ Actual equipment may differ from the images.

4. Safety Management

• A dormitory manager helps residents with their daily life, and cares about their health condition and security. When you're sick, or when a package for you needs to be received while you are absent, they will support you.

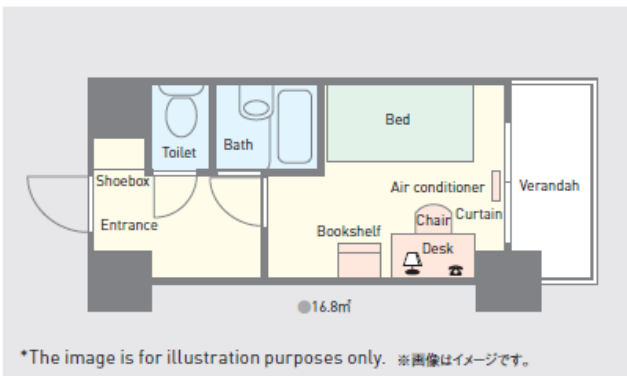

We hope our dormitory would be a place that gives many opportunities to interact with other languages and cultures in your daily life.
