

HOSEI Search is the latest discovery service with which users can search books in the library and online materials all at once.

1. How to search

▼TOP page <https://hosei.summon.serialssolutions.com/>

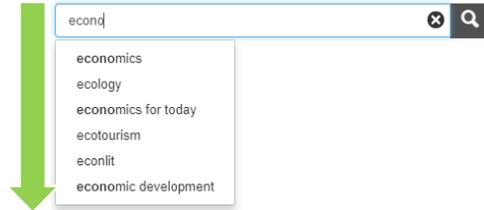

Just enter the keyword in the search box and click the Search button.

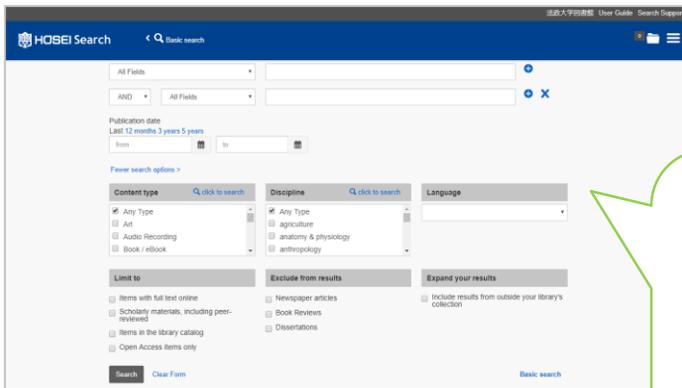

Automatically search many fields. For example, if users enter the title of the journal article, the subject, the author, the publisher, the title of the journal, the title of the book, the volume, the issue, ISBN, ISSN and DOI, they can get the search results related to the above mentioned conditions.

As you type within the search box, the Summon autocomplete algorithm offers searches that might be similar to the one you're typing.
