Discover Japanese Culture, State-of-the-art Science and Technology, and World Heritage.

Japan is a beautiful country with much to offer. International students can experience pop culture, state-of-the-art science and technology, and world heritage sites which are specific to Japan.

More Than 140 Years of History

– Immerse yourself in great education with a long history

HOSEI University, established in 1880 as the Tokyo School of Law, is a Japanese university with a long and storied history. It was the first private university in Japan to establish faculties of law and social sciences, and the second to establish a Faculty of Business Administration.

Study in the Center of Tokyo

The Ichigaya campus of HOSEI University is located in the center of Tokyo. Two other campuses (the Koganei Campus and the Tama Campus) are also located in Tokyo. Tokyo is one of the most amazing cities in the world. Studying in Tokyo gives you access to museums, pop culture, shopping, and entertainment to enrich your experience. Shinjuku, Ikebukuro, Akihabara, Shibuya, and Ginza are less than 30 minutes from the Ichigaya campus by train.

Safe and Comfortable living

Japan offers international students an environment to focus on their studies safely and comfortably. Japan is known for its low crime rate, advanced infrastructure and outstanding hospitality. The on-time public transportation system helps you reach your destination safely.

A well-established health insurance system enables students to receive advanced medical care for a small amount of money. International students can find great friends and interact with them comfortably because about 200,000 international students are studying at higher educational institutions in Japan. (Excerpt from the website of JASSO) Many foreign embassies are located in Tokyo which students can easily go to if needed.

Globalized University

– Access the world and gain a deeper understanding of Japan

In 1904, HOSEI University started to accept a number of Chinese students by establishing a short program for Chinese students ahead of other universities. HOSEI University accepted 1,515 international students in 2019, as part of the Top Global University Project*, and boasts 251 partner universities in 44 countries and regions (as of February 2020).

*The Top Global University Project is a government-initiated project which provides prioritized support and funding for 37 selected universities in Japan.

Wide Range of Academic Fields and Student Support

– Find what you want to learn and enrich your campus life

HOSEI University has a wide range of academic fields. Since it was established, HOSEI's academic fields have been organized into 15 undergraduate faculties and 38 departments, 15 graduate schools, and 2 professional graduate schools from the arts to sciences. All of the programs are accredited by the Japanese government. HOSEI University also offers degree-seeking programs taught in English called "English-based Degrees", meaning prospective students have a wide variety of programs to choose from. Moreover, the students receive a full range of student support such as financial support and career support.

Affordable Tuition and a Wide Range of Financial Support

Japanese universities offer comparatively lower tuition compared to the United States and the United Kingdom. There are a wider range of scholarship programs and tuition reduction programs available to international students in Japan than those in other countries.

Website (English)
<http://www.hosei.ac.jp/english/>

HOSEI by the NUMBERS

English-based Degrees (for undergraduate students)

- All classes taught in English**
Courses for English-based Degrees are conducted entirely in English, so that students who do not have Japanese proficiency are able to get a degree in Japan.
- Japanese language classes**
Students have opportunities to study the Japanese language. Even if students cannot speak Japanese when they enroll, they will be able to get a minimum level of Japanese proficiency and enrich their life in Japan. (Japanese language study is not included in the GIS curriculum.)
- Small class sizes**
A small group learning environment enables students to have opportunities to participate in classes actively, and is responsible for a deeper learning and a smooth acquisition of academic skills.

GIS pp.5-6

Faculty of Global and Interdisciplinary Studies

Areas of study Liberal arts education in Humanities, Social Sciences, and Management Sciences
As a faculty, GIS offers over 200 different courses from more than 30 disciplines.

Admission April & September
Number of places to be offered 10 in fall, 90 in spring
Campus Ichigaya Campus

GBP pp.7-8

Global Business Program

Areas of study Business Administration (Business, Strategic management, Marketing, Finance, Accounting)

Admission September
Number of places to be offered Period I : 10 Period II : 10*
Campus Ichigaya Campus

SCOPE pp.9-10

Sustainability Co-creation Programme

Areas of study Sustainability Studies (Sustainability, Environmental Policy, Energy and Resources, Social Development)

Admission September
Number of places to be offered Period I : 10 Period II : 10*
Campus Ichigaya Campus

IGESS pp.11-12

Institute for Global Economics and Social Sciences

Areas of study Economics (Economics, Japan and the Global Economy, Area Studies, Business Communication)

Admission September
Number of places to be offered 30
Campus Ichigaya Campus and Tama Campus

*The Top Global University Project is a government-initiated project which provides prioritized support and funding for 37 selected universities in Japan.

* The admission period II for both GBP and SCOPE will be effective subject to approval by the Ministry of Education, Culture, Sports, Science and Technology (MEXT). This period applies to non-Japanese applicants who expect a "College Student" ("留学") status of residence on their visa to study at Hosei.

Faculty Highlights

1 Liberal Arts

A liberal arts education lays the foundation for intellectual pursuits and creates a framework for students to both contribute to and thrive in society. GIS offers opportunities for students to gain a deep and wide knowledge of various disciplines, including (but not limited to) the humanities, social sciences, and management sciences, in order to enrich the mind, make unbiased judgments, and develop flexible and innovative thinking.

2 Interdisciplinary Studies

An interdisciplinary education at GIS moves between and beyond traditional academic fields. It liberates students from an overemphasis on and the narrow perspective of any single discipline in understanding complex issues in the world today. They also learn how to adopt and synthesize new ideas, while gaining skills in critical thinking and problem solving within a supportive department setting.

3 A Global Perspective

Recognizing the variety of social and political challenges confronting contemporary society, GIS seeks to develop a truly global perspective to analyze and engage with the diverse experiences of an interdependent world. Whether choosing a career path abroad or within the increasingly internationalized environment of Japan, students leave GIS as an independently-minded person with sensitivity and tolerance to cultures not their own.

What GIS offers

We Provide

Liberal Arts Program

- Our enhanced liberal arts-based curriculum now offers over 200 courses across 30 disciplines
- Our extensive range of content courses provides both local and global perspectives
- Specialist seminars allow students to gain extensive, in-depth knowledge

Engaging/Diverse Learning Environment

- English is the department's lingua franca. GIS provides 100% of its content courses in English
- Benefiting from professors, academic support staff and other students, who are drawn from a variety of cultural backgrounds
- Students play a more active role through our low teacher-to-student ratio
- Interacting globally through study abroad, overseas volunteer work and internship opportunities
- Building valuable relationships through alumni networking
- Enjoying the support and guidance of dedicated academic advisers

You Develop

Skills

- Leadership
- Critical thinking
- Intercultural understanding
- English communication
- Presentations
- Problem solving
- Teamwork
- Discussion

Knowledge & Cultural Awareness

- Gain foundational academic learning
- Consider problems from interdisciplinary perspectives
- Encounter real world issues and solutions
- Develop an awareness of social responsibility
- Experience diversity and inclusion

Your Goal

Global Career Paths

- Postgraduate study
- Corporations (Japanese & overseas-affiliated)
- Start-ups
- Public sector organizations
- NGOs & NPOs

GIS Liberal Arts Program

Foundation Courses

Laying the groundwork for education and employment; students acquire the fundamental skills essential for success in GIS and in their future careers through our academic skills courses, e.g. Academic Writing, Debate & Discussion and Presentation & Public Speaking.

Humanities

A Humanities education is interdisciplinary in its approach. Through courses in such areas as history, literature, philosophy, arts, photography, creative nonfiction, and music, it guides students to a clearer understanding of culture and society. Studies in the Humanities are not experimental, but critical, historical, comparative and contemplative. It defines a liberal arts education. Students with a background in humanities can innovate and accelerate the developments in their specific occupations.

Social Sciences

The ability to understand how social and cultural forces influence our behavior and shape our reality is critical to understanding ourselves and others, as well as the social world itself. The wide range of disciplines in the social sciences — cultural and social anthropology, sociology, psychology, sociolinguistics, and political science, to name a few — cultivate in students the ability to understand human behavior at the individual, organizational, societal, national and global levels.

Management Sciences

To succeed in today's globalized world, organizations require individuals who are able to analyze complex situations and make effective decisions based on their understanding of both classic and contemporary economic and business principles. Such individuals would be invaluable in helping organizations achieve both competitive advantage and sustainable economic growth. Courses provide students with knowledge of business and management, and illustrate some of the branding, negotiation, investment, management, and innovation challenges of today.

100 level

Build basic knowledge in core disciplines

200 level

Cultivate an interdisciplinary perspective by applying knowledge gained in a number of fields

300 level

Work within and across areas in focusing on particular issues

400 level

Develop specialized knowledge by applying an interdisciplinary approach to a seminar's field of study

INTERDISCIPLINARY STUDIES 200+ courses across 30 disciplines

Anthropology, Business Management, Cultural Studies, Development Studies, Economics, Education, Environmental Studies, Gender and Sexuality Studies, Geography, History, Information Studies, International Relations, Legal Studies, Linguistics, Literature, Media Studies, Migration Studies, Performing Arts, Philosophy, Politics, Psychology, Race and Ethnic Studies, Religious Studies, Research Methodology, Science and Technology Studies, Sociology, Statistics, Tourism Studies, Translation, Visual Arts

Value-Added Options

Global Open Courses

Internship and International Volunteer Programs

Overseas Study: OAS, OSEP, Accreditation

GIS Courses

*Course offerings are subject to change.

From the Dean

Yu NIYA
Dean of GIS

Our modern society is one of choices: how should we choose our career, our lifestyle, and our relationships? The liberal arts education GIS provides will help you to develop your ability to make wise decisions with your life. Accumulating knowledge from multiple disciplines will allow you to better understand the complexities of the world we all share. You will acquire skills to critically analyze problems facing the global community and consider the effectiveness of the solutions each discipline provides. Studying at an increasingly in-depth level will hone your ability to identify problems that may not be apparent at first glance. Developing such an awareness during your time at GIS will allow you to make choices that can have a positive effect on a local and global scale.

Program Highlights

1 Third-oldest business school among Japanese universities

Since its foundation in 1959, the Faculty's education and research studies have brought many graduates whose competency has been proven in the real business world. With our accumulated values built on a long history and tradition, combined with the school's motto "Practical Wisdom for Freedom", we keep challenging new issues.

2 Obtain in-depth knowledge of Japanese-style business management

Japanese companies have been able to maintain their competitiveness in the global business environment with outstanding craftsmanship and top-quality services. In addition to the large-scale manufacturers of products and brands with a worldwide reputation, many other companies in the areas of retailing and services also are successfully expanding their presence globally, particularly in Asian markets.

3 Curriculum relating theories to practice

The students will acquire a broad range of knowledge and theory, from a basic to expert level. Additionally, the program includes company visits, internships, and classes given by guest lecturers with business management experience. Through these educational opportunities, the students will be able to relate the theories of business administration to actual practice.

What GBP offers

The Global Business Program (GBP) is a newly designed program integrated as part of the Faculty of Business Administration at HOSEI University, that commenced in September 2016. Its foundation is based on the objective to develop human resources for the management of globalized businesses in the 21st century, which is often called "The Asian Century".

The students in this program will enjoy active interaction with fellow students from different backgrounds and cultures, which will enhance their understanding of global business management, and encourage proactive participation in learning activities. In addition, this will become an optimum program for studying Japanese-style management as well as the Japanese spirit of craftsmanship and hospitality.

Japanese companies have been able to maintain their competitiveness in the global business environment with outstanding craftsmanship, widely known in Japanese as "Monozukuri", and top-quality services.

In addition to large-scale manufacturers of products and brands with a worldwide reputation, many other companies in the areas of retailing and services also are successfully expanding their presence globally, particularly in Asian markets. Moreover, the Japanese style and spirit of hospitality, famously known in Japanese as "Omotenashi", captures the hearts and minds of tourists from overseas.

The GBP offers the unique opportunity to obtain in-depth knowledge of Japanese-style business management, which has been fundamental to corporate success throughout the world.

From the Dean

Tetsu SANO

Dean and Professor,
Faculty of Business
Administration
Industrial Sociology,
Labour Market Policy

Why GBP at HOSEI? HOSEI's Faculty of Business Administration was established in 1959, the third oldest among Japanese universities. The GBP offers all major subjects of business administration from introductory to more advanced levels, most of which are taught in small classes by our full-time professors. It is located in the middle of Tokyo, so it is convenient to visit various attractive places.

More importantly, we offer opportunities for students to learn what is really going on in the Japanese business world. There are workshops inviting active business persons and internships in Japanese and multinational companies.

The Japanese economy is not as good as it was during the 1960s to 1980s, and many formerly excellent companies are struggling to survive. But they still keep many good features such as efficient production of quality goods and affordable services full of hospitality.

What's happening? Well, good things and bad things are often two sides of the same coin, and it varies which side outbalances the other according to various conditions. Understanding that will be challenging but worthwhile. Therefore, we believe that learning from Japanese experiences, both good and bad, will be helpful for students to work in any sector or country after graduation.

So, why not GBP at HOSEI?

Curriculum & Course List

One essential element in the management of globalized businesses is development of communication skills in the English language. For this reason, the GBP will be conducted entirely in English.

The GBP students will acquire a broad range of knowledge and theory, from a basic to expert level, which are indispensable to participation in the global business environment.

Additionally, the GBP program includes in its curriculum company visits, internships and also classes given by guest lecturers with business management experience.

Through these educational opportunities, GBP students will be able to relate the theories of business administration to actual practices.

The GBP program is divided into four units;

- Basic unit – to learn the basics of business administration
 - Advanced unit – to acquire an advanced level of knowledge of business administration
 - GBP unit – lectures on business management and practice-based classes
 - Liberal Arts unit – to broaden knowledge in liberal arts and enhance communication skills
- An optimum combination of these four units will lead to the best mix of theory and practice.

Subject Areas & Course List

	Introductory Courses of Business Administration	Intermediate/Advanced Courses of Business Administration	Special Topics in management	Global Business Courses	
	From 1st year	From 2nd year	From 2nd year	From 1st year	From 2nd year

From the Professor

Dennis TACHIKI

Professor, Faculty of Business Administration
Economic sociology, Total quality management

Our diverse and multilingual faculty warmly welcomes you to a four-year journey towards your university degree. During this journey, the faculty will introduce you to global business practices through both classroom exercises and fieldwork. Since the class size is small, our faculty can blend the general curriculum with your individual needs and aspirations. Moreover, your classmates come from many countries around the world and so you can learn a lot about other cultures and business practices. Through this process, at the end of your journey here at Hosei University, you should have made many lifelong friends and climbed the academic mountain to see a broad range of career options. Why not join us?

	<1st year>	<2nd year>
Course Example	Special Topics in Global Business A Provide undergraduate students in GBP deep understanding of how national societies are built and influence people's thoughts and action.	① Workshop Advanced listening to "real-world" guest speeches ② Internship In depth hands on learning ③ Seminar for more focused study
GBP Global Business Course	Special Topics in Global Business B This course will introduce typical operational styles, unique business terms, and manners of Japanese enterprises to students who are interested in learning Japanese management styles.	

Program Highlights

1 Wide Variety of Disciplines

We offer well balanced, wide ranging core courses from the humanities, economics and sociology, to ecology and natural resources, in order to comprehend and create solutions for the social and environmental challenges we are currently facing and may face in the future.

2 Field-based and Active Learning Opportunities

Students will be able to apply what was learned in the classroom in terms of the knowledge, skills, and values of these disciplines to our communities and society through hands-on experiences off-campus. These learning opportunities will provide students "real life" exposure for sustainability challenges.

3 "Co-creation" Experience

The keyword of SCOPE is "Co-creation", which goes beyond "cooperation". Students have co-creation experiences through SCOPE core curriculum and the field-based and active learning with fellow SCOPE students, other HOSEI University students, the university faculty members, as well as those who you meet through field workshops.

What SCOPE Offers

The Objective of SCOPE

What is a sustainable society? How can we create it? There is no absolute answer to these questions. The objective of SCOPE is to train students to become GLOCAL(Global + Local) citizens, who can lead the creation of a sustainable society with global and local perspectives.

In this modern world, we face increasing challenges to maintain peaceful and prosperous societies, deriving from a number of factors such as global environmental problems, an ever growing world population, globalization of economic activities and consumer behavior, as well as continuous political and religious conflicts in some regions. Now is the time we take actions to make a new model to establish a sustainable society. In order to join forces to achieve this goal, it is imperative that students first grasp the whole structure as to how such issues are related to each other, and develop solution-oriented thinking skills. SCOPE utilizes experiential learning, research, and service activities to implement practical solutions for a sustainable future.

What We Offer

- 1) Ability to determine the core of complex issues and to comprehend the actual situation
- 2) Ability to critically analyze social and environmental issues and to seek possible solutions
- 3) Communication skills to bring together collective efforts of all society members throughout the process of conducting a project and strive for the solution

From the Program Director

Naruhiko TAKESADA

Program Director and Professor,
Sociology, Environmental Influence
Valuation/Environment Policy,
Philosophy/Ethic

To create a new sustainable tomorrow.

In the world so far, everyday life has continued in a slowly changing way. In the meantime, our lives have become more convenient, the natural environment around us has changed, we have grown older, and the months have passed. Human beings have wondered if it would be possible to sustain the life we have lived up to now, a society of convenience. But it was hard to imagine that all of a sudden those things would have to change. With the exception of a major natural disaster. But we saw the outbreak of COVID-19 change our daily lives and the shape of our society in the blink of an eye. And more than ever, I think we take the meaning of the term sustainable society more seriously.

At SCOPE, we intend to educate people who will contribute to the creation of a sustainable society. A sustainable society, however, is not a simple extension of the past. From now on, we need to envision and live in a new tomorrow. And in the process, we need to achieve the goal expressed in the SDGs that no one will be left behind. It will never be an easy challenge. But we believe that we would see someone take on that task from a fellow student at SCOPE. For this purpose, the SCOPE will provide you with not only interdisciplinary lectures but also opportunities to experience activities and measures actually conducted on the ground in Japan. I hope you to learn and walk together on the passage toward sustainable future.

Curriculum & Course List

SCOPE utilizes experiential learning, research, and service activities to implement practical solutions for a sustainable future.

Areas	Subjects	Areas	Subjects
Introduction to Sustainability Studies	Introduction to Sustainability Studies	Humanities	<ul style="list-style-type: none"> •Strategies for Intercultural Communication •Global Human Resources Management •Business Communication •Human and Environment •Area Studies
Seminar	Seminar	Environment & Society	<ul style="list-style-type: none"> •Environmental Science •Business and Society •Introduction to Energy and Resources •International Society and Environmental Issues
Japan & Sustainability	<ul style="list-style-type: none"> •Japanese Environmental Policy •Japanese Society and Sustainability •Business and Sustainability in Japan •Bio-diversity and Nature Conservation in Japan •Social Development and Sustainability •Practice of Environmental Economics and Japan •Asian Societies and Japan •Subsistence, Resource Use and Sustainability •Civil Society and NGOs 	Field Based & Interactive Learning	<ul style="list-style-type: none"> •Research Methods •Co-creative Workshop •Field Workshop

Disciplinary & Elective Courses are listed in the table above.

The curriculum is subject to change.

Field Workshop

'Field Workshops' are devised to explore various capacity-building environment off-campus. Participating in Field Workshops, students will make field trips off campus and meet people who are engaged in various "real" issues in different places.

Through this interactive and practical class, students will be able to understand better how to relate classroom activities to real-life agenda. Field Workshops will be provided by faculty members in the periods of summer and spring recesses.

The topics about the Field Workshops may include nature conservation, town planning, agriculture, community welfare, international cooperation and energy conservation.

From the Professor

Eiko SAEKI
Associate Professor
Sociology

SCOPE offers a rigorous and supportive environment to learn about global issues and their local impacts. I enjoy interacting with students with diverse backgrounds in the intimate academic setting SCOPE provides. I look forward to working with you to consider innovative solutions to many of the pressing concerns we face in the twenty-first century.

Careers

Shaowei WANG
Graduated from the
Department of Sustainability
Studies in 2017
Seven-Eleven Japan Co., Ltd.

I mainly studied "Economic Environment". To solve various environmental problems I suggested solutions using concrete examples. Through this process I could acquire problem thinking skills. I especially learned how to deal with environmental problems using Microeconomics, Business Administration and Economics Environmental Studies ways of thinking in order to create a sustainable society. Recently, companies that make a point of focusing on environmental measures are increasing. Due to the fact that they are seeking to profit from the continuation of economic development, they need to deal with environmental issues as well. I am thinking that we can tackle real environmental issues by applying the knowledge I acquired at HOSEI University to business activities. In addition, I can contribute to society by creating a system for dealing with company-related environmental issues. I studied as an international student from China. I didn't just associate with students from China, but also tried to make Japanese friends. Please have an exciting student life and make every minute of your life "perfect". I hope that you will live your dream and move on towards a bright future.

Program Highlights

1 Studying in small classes on 2 campuses.

The Faculty of Economics is large, but you will study in a small group of students in IGESS classes. In addition, you will spend time at both the Ichigaya and Tama campuses.

2 Studying Economics

IGESS offers bachelor's degrees in Economics (B.A. in Economics) to support the development of globally-minded experts toward the formation of a sustainable society. You will study primarily global economics and write an honors thesis.

3 Enrichment of Liberal Arts and Japanese Language Education

In the IGESS curriculum, you will be able to study liberal arts widely as part of your general education courses. You will have many opportunities to learn Japanese not only during the first three semesters but also throughout the following five semesters.

What IGESS offers

The Faculty of Economics at HOSEI University, founded in 1920, has more than 3,000 students, and is accordingly one of the largest and oldest faculties among private universities in Japan. Established in 2018, the IGESS (Institute for Global Economics and Social Sciences) offers English-based degree programs in small classes. The annual student quota is 30 students.

When you join the IGESS, you can:

1. Spend the first three semesters at the Ichigaya Campus in central Tokyo attending the First Year Seminar, Japanese, Academic Skills and Liberal Arts classes, and the following five semesters on the beautiful, spacious Tama Campus in suburban Tokyo where you can take subjects offered by the Faculty of Economics as well as other faculties (including Social Sciences, Social Policy and Administration, and Sports and Health Studies);
2. Study Economics from the first semester, and from the fourth semester attend specialized courses in Economic Theory and Applications, Applied Global Economics and Global Business, and Business English and Communication;
3. Take basic Japanese lessons at the Ichigaya Campus and many advanced lectures at the Tama Campus to improve your Japanese skills;
4. Study with Japanese students in both English and Japanese-spoken courses including seminars and
5. Join international internships and international volunteer programs (both paid) offered by HOSEI University and earn academic credit.

From the Dean

Yutaka SUZUKI

Dean of the Faculty of Economics,
Contract Theory, Theoretical Industrial Organization, Theory of the Firm, Theoretical Institutional Analysis

The Institute for Global Economics and Social Sciences (IGESS) will offer English-based degree programs based on collaboration among four faculties (Economics, Social Sciences, Social Policy and Administration, and Sports and Health Studies) at HOSEI University's Tama Campus. At IGESS, students will be scheduled to study both on the Ichigaya and Tama Campuses. IGESS will offer bachelor's degrees in Economics (B.A. in Economics) to support the development of globally-minded experts toward the formation of a sustainable society. IGESS's educational curriculum is designed for students who are eager to study Global Economics (especially Global Economy, Global Business and Business Communications) in English. We are looking forward to welcoming students who are enthusiastic about these aims.

Curriculum & Course List

Students require extensive knowledge of Economics and a variety of other disciplines to understand today's global economy. Accordingly, the IGESS curriculum encompasses the following course and program elements:

- Extensive basic education and liberal arts courses up to the third semester
- From the fourth semester, well-balanced courses in Economic Theory and Application, Applied Global Economics and Global Business, and Business English and Communication
- Honors thesis preparation with supervision from seminar instructors

	1st Fall	2nd Spring	3rd Fall	4th Spring	5th Fall	6th Spring	7th Fall	8th Spring
	Ichigaya Campus			Tama Campus				
General Education Courses	First Year Seminar Academic Skills (Academic Literacy, College Writing) Japanese (Level separation) Liberal Arts (Humanities, Social Sciences, Natural Sciences, Language Education, Information Technology, Career Development Skills, Health and Physical Education) Global Open Courses			Japanese Communication, Japanese Seminar, Japanese Culture, Japanese Society, English Drama, Multicultural Translation through English, Basic Science for Global Environment

The curriculum is subject to change.

What you study

Jess DIAMOND

Associate Professor of Economics
Macroeconomics (Inflation),
Corporate Finance,
Labor Economics

In Practical Economics we study the principles of economics and their applications to the real economy. The course covers numerous topics, ranging from Game Theory to Inequality to Macroeconomics and Finance. After studying the underlying theory we discuss each topic with reference to the world today and try to connect economic theory to current events in order to gain a better understanding of the world around us. This course is designed for students who want to learn how to use the tools of economics to analyze the modern world.

Textbook: Acemoglu, D., Laibson, D., and List, J.A. 2015. Economics: Pearson.

Yasuo NAKATANI

Professor of Economics
Business Communication

Participants learn business research skills for global marketing, business communication and leadership through business cases in Japanese contexts such as Intel Japan, Coca-Cola, Sapporo Beer, Toshiba Vietnam and Shiseido China etc. This course is also designed to give students a comprehensive view of business presentation and discussion skills. Students learn important skills for effective presentations in English and have opportunities to improve their pronunciation and performance skills. This course also develops an awareness of the importance of coherence and cohesion in speech discourse to attract an audience.

Textbooks 1. Y. NAKATANI & R. Smithers. Global Leadership; Case Studies of Business Leaders in Japan Kinseido
2. M. Hood. Dynamic Presentations, Kinseido

Admission in September 2021

Other Programs

Non-Degree Seeking Program

JLP(Japanese Language Program)

Japanese Language Program (JLP) is for non-degree students who are non-native speakers of Japanese. This program offers a wide range of study levels and subjects for students who have N4 level or higher of the Japanese-Language Proficiency Test (JLPT). It also, as one of objectives, focuses on attaining Japanese proficiency required for study at university undergraduate and graduate level, and business in future career. Our educational goal is to develop internationally competent students capable of communicating in Japanese and contributing to a global society. We open our door to any foreign students who are eager to learn Japanese language and culture at a university in Japan.

Career Paths and Support

HOSEI international students can increase their employability utilizing a wide range of free support offered by the Career Center. This support are responsible for success in students' recruiting activities. Many HOSEI international students have entered major Japanese companies.

Career Support

Guidance

A wide range of guidance provides basic information needed when students look for jobs in Japan. It helps students to understand Japan-specific recruitment activities and how to research Japanese companies and industries. The Career Center also send e-mails weekly to share information on recruitment and employment fairs with international students.

Regular counselors

Job hunting consultations are given on a private, one-on-one basis.

Workshops

A wide variety of workshops provides important advice to help with document screening and job interviews and group discussions. It also gives students opportunities to understand Japanese business customs and define their career goals through self-analysis.

Talk session with seniors who have job offers

Senior HOSEI international students with job offers share their real experiences of job hunting activities in Japan, which is valuable information for success.

Opportunities to learn business Japanese

International students have an opportunity to improve their business Japanese proficiency, which Japanese companies prioritize in their recruitment activities, through the above support.

Student Support

To help international students settle into Japan and maximize their campus experience, HOSEI University offers a variety of extra-curricular activities, events, support, and facilities.

Student Interactions

Club Activities

Club activities are an important part of campus life. More than 200 clubs are recognized by the University. Students can find a club for whatever they are into. In particular, the HOSEI University International Club organizes exchange events with international students such as a Japanese speech contest (with many international students participating), going to firework displays, watching the Big Six University Baseball League Tournament, and other activities.

Global Lounges (G-Lounges)

Global lounges on the three campuses offer students opportunities to communicate in various languages, with many different events. International students and Japanese students can chat and make friends.

International Student Advisors and International Student Supporters

They help international student settle into life in HOSEI and Japan. Professors and students give you advice about daily life.

Accommodation

HOSEI University offers off-campus dormitories near each campus. Residents are provided with breakfast and dinner from Monday to Saturday, private bedrooms, an in-room Internet connection, and showers, available at any time. Students can address their questions or concerns to a dormitory manager. They can also enjoy parties and other events in the dormitories.

Since foreigners looking for rental accommodation in Japan face various challenges, such as the language barrier or finding a guarantor for their rental contracts, together with a partner company, HOSEI provides a full range of living support services for international students seeking rental accommodation.

For more information on accommodation, please scan this QR code ▶▶

Other Support and Facilities

- Computing and Networking Center that facilitates the use of the web, e-mail and more
- Online information for part-time jobs
- Study rooms where students can study in a quiet atmosphere
- On-campus health clinics that provide medical care
- Cafeterias offering a variety of dishes at reasonable prices
- Library with a collection of 1.7 million books
- Facility for off-campus activities (Ishioka All-purpose Gymnasium for a variety of sports)
- The Campus Members Program offering HOSEI students free admission to several museums
- Full support for immigration procedures

Practical Wisdom for Freedom

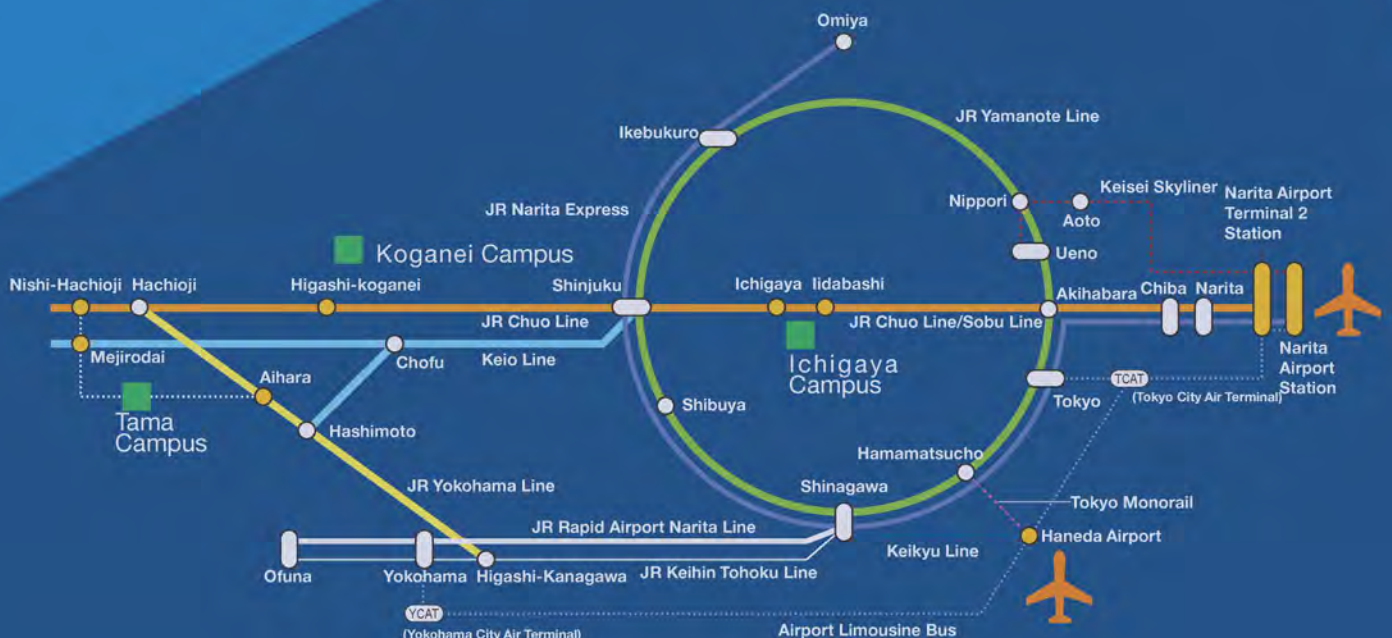

Hosei University was founded by a group of ambitious young men at the beginning of the modern era in Japan for ordinary citizens who had become aware of human rights and sought a knowledge of the law.

As the school song says, Hosei University is a place where "good teachers and good friends gather." The university has always fostered a "free academic atmosphere" in which the rights of others are respected and diversity is accepted and a "pioneering spirit" which is not bound by convention and aims at building a fair society.

Carrying on the legacy of the university's founders, our mission is to pass on this free academic atmosphere and pioneering spirit to the next generation and contribute to solving the problems of the world.

In order to fulfill this mission, the university strives to support farsighted research from a variety of points of view and educate students to become independent citizens who carry out their work for the society and the people based on well-grounded principles and unrestricted thinking.

Hosei University promotes sound critical thinking based on sympathy for all people, both locally and internationally, and the creation of ideas for solving social problems based on practical wisdom. In cooperation with its many graduates, who have the ability to live anywhere in the world, Hosei University will contribute to the future of sustainable societies.
